Blue Sky Cleaners

You wouldn't hurt a fly. Sure, if it were circling your stir-fry you'd swat. But when it comes to matters other than hygiene, your policy is do no harm.

So why damage your laundry?

Opening today, Blue Sky Cleaners utilizes the revolutionary liquid CO₂ dry-cleaning method, a natural, toxin-free alternative to other cleaning agents that doesn't pollute the environment or cause negative health effects. Plus, it's gentler on clothing and doesn't cause fading or shrinking.

What's more, Blue Sky offers free pickup and delivery with energy-efficient vehicles and uses hemp bags.

So be proud of your dirty laundry — or at least where you take it.

Because anything less wouldn't wash with you.

Blue Sky Cleaners, 1111 Elliott Avenue West (206-838-8433 or blueskycleaners.com).
